Bengaluru

SUMMARY

Full stack developer intern with hands-on experience across Python/FastAPI and the MERN stack, contributing to a multi-tenant AI SaaS platform. Have worked on backend APIs, a small LLM tool-calling integration, and React/Next.js frontend features, along with some GDPR/DPDP compliance tasks. Growing my skills and looking for a junior full stack role where I can keep contributing and learning.

EXPERIENCE

Full Stack Developer Intern — Thundertribes (Lashvae) *May 2026 – Present*

- Worked on GDPR/DPDP compliance tasks: consent withdrawal & erasure flows, a breach-detection service, and tenant data-processing acceptance tracking.
- Worked on security tasks including token encryption/decryption and an audit table for tracking data changes.
- Worked on lead capture and complaint detection from customer chats, and built an email notification system (CRUD APIs, verification flow, HTML templates) for operational emails;
- Worked on the React/TypeScript/Next.js dashboard,Responsive design including the Leads Pipeline and Growth pages, and helped debug the notification and AI response pipelines.

Software Developer Intern — Navhim Healthcare Tech *Nov 2025 – Jan 2026*

- Worked on the MERN stack (MongoDB, Express, React, Node.js), building REST APIs and UI features for patient and appointment management.

Python Full Stack Developer Intern — Disha Computer Institute *2024*

PROJECTS

- RAG Document Q&A System — Python, FastAPI, Groq LLM, FAISS; a learning project — a simple pipeline that answers questions from PDF documents using vector search.
- Inventory Management System — Flask, React, MySQL, JWT; a college assignment project with basic role-based dashboards and stock tracking. github.com/sonam-yadav04/inventory-management-system
- AI Journal System — Node.js, React, Groq API; a small journaling app that uses an LLM to pull out emotions and keywords from entries. github.com/sonam-yadav04/ai_journal_system
- Book Finder App — React, Public Books API; a simple book search app built with a public API. sonamyadav04.github.io/BOOKS_FINDER
- CSM Command Center Dashboard — React; a practice dashboard UI for customer-success style metrics. sonam-yadav04.github.io/CSM_DASHBOARD
- Finance Dashboard — React; a practice dashboard for visualizing financial data. finance-dashboard-ten-ivory.vercel.app

EDUCATION

M.Sc. Computer Science — Holkar Science College (DAVV), Indore | 2023–2025 | CGPA 7.48
B.Sc. Computer Science — Govt. Netaji Subhash Chandra College, Biaora | 2020–2023 | 70%

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL, HTML5, CSS
Frontend: React, Next.js, TypeScript, Responsive Design
Backend: FastAPI, Flask, Node.js/Express, SQLAlchemy, RESTful APIs, JWT Auth
Data/Infra: MongoDB, MySQL, Redis, Docker, quadrant(basics
AI/Tools: LLM Integration (DeepSeek/Groq), asyncio, Git/GitHub, Postman, cURL, Linux (basics), VS Code
Compliance: GDPR/DPDP Consent Flows, Breach Detection, DPA Documentation, SMTP Email Service
Process: Agile, Jira
